

## Macroeconomic and Financial

Nikkei analysts compile a large amount of Macroeconomic data in addition to information gathered from various government departments, the Bank of Japan and international organisations such as the IMF. The Macroeconomic data available through NEEDS allows clients to view the bigger picture of the Japanese economy and provides a one stop platform to gain vast amounts of data on a state of the Japanese economy as a whole.

### Foreign Exchange and Interest rates

Daily market data from the foreign exchange markets, money markets, bond markets in Tokyo, New York, London, etc., which are contained in the Nikkei newspapers.

### Nikkei Economic Statistics

Major macroeconomic data, necessary for analysis of the domestic economy as compiled by Nikkei including GDP, Government accounts, Production records, labour, finance and household expenditure etc.

### Statistics on Production

Statistical data on major products, shipping, and inventories released by the METI.

### Consumer Statistical Data

Data extracted from reports on household finance surveys and consumer price index (CPI) disclosed monthly from the Statistic Bureau of the Ministry of Internal Affairs and Communications (MIC).

### Daily Household Survey Data

Data on "daily expenditure per use application" and "daily expenditure per item" for a month for non-agricultural/non-fishery, a part of the household survey conducted by the Ministry of Internal Affairs and Communications (MIC).

### Statistics on Foreign Direct Investment

Data on direct investment abroad excerpted from the "International Balance of Payment Statistics" and "Survey on Japanese Companies' Overseas Business Activities".

### Nikkei Monetary Data

Data on the BOJ statistics such as money supply and money flow, accounts, and public & financial statistics data such as interest rates and financial corporate bond market data.

### BOJ Price Index

Data on major price indices released monthly by BOJ, such as corporate goods price index (CGPI), input-output price index of the manufacturing industry by sector (IOPI), and corporate service price index (CSPI).

### Economic Data by Size of Company

Data on economic statistics by corporate size such as by small and medium sized company (SME) or by large sized company. Sources are the SMEA, MHLW, MLIT, JASME, Shoko Chukin Bank, etc. NEEDS data covers production, corporate management, finance, trade, price, etc.

### BOJ Tankan Survey

Data on "Short-term Economic Survey of Principal Enterprises in Japan" (Tankan Survey) released by the BOJ on a quarterly basis.
